BALKANSKA DIVOKOZA
(PUNOKRPA REPUŠA BALČANICA)
je međunarodno zaštićena vrsta koja treba
biti zaštićena. NP Sutjeska je najkvalitetniji
i najbogatiji stanište ove vrste u BiH
i najbolje mjesto za njeno očuvanje.

Two verdicts in our favor for EIAs

Government decided to stop procedures

Public opinion: against HPP

New scientific data and arguments

Bern Convention compliant

Investor slowly pulling back

- Using Sutjeska example to strengthen and encourage smaller campaigns in BiH and in the region and to ask for bigger changes in energy sector
- Widening anti-hydro campaigns into whole SEE region with SEENET partners (<http://seenet.net/en>)
- Continuing with other activities in NP Sutjeska
